

STCC aims to strengthen the overall impact of cancer research and translation in Singapore by bringing together key basic, clinical and translational teams on joint platforms to actively establish and implement collaborative cancer programmes. The consortium will be under the Ministry of Health Holdings (MOHH) Pte Ltd and anchored by the cancer research programmes and commercialization platforms of STCC's research partners (NCCS, NCIS, NUS CSI and A*STAR).

Pathologist/Pathologist Associate (STCC)

Responsible for routine case selection from OT list for prospective consenting, collection and banking and perform histo-pathological QC on tissue samples being collected and stored in the Tissue Repository. Tissue collection and processing in the Tissue Repository and assist requesters on their tissue request for research.

Primary Responsibilities and Duties

Perform routine case selection for prospective consenting, collection and banking

Liaise with surgeons seeking approval for tissue collection from their patients whenever necessary and seeking information from surgeons regarding doubtful cancer cases for bio-banking purposes and processing

Perform histopathological QC on tissue samples being collected and stored

Work with hospital staff on improving processes of tissue / biomaterial collection from the OT, and wards/clinics in the hospital; finding ways and means to reduce collection / ischemia times

Assist Principal Investigators with pathological inputs for their research projects / publications

Sieving out requisite tissue details from database to list out the tissues required for approved requests and going into the details of the Principal Investigators (PIs) requirements and ensuring tissues retrieved meet the PIs requirements including the site, histological diagnosis, percentage of tumor in the tissue and necessary clinical information.

Writing protocol amendments for IRB approval on new bio banking collaborations with other departments in NUH, amending consent forms and Patient Information Pamphlet Sheet as per the protocol guidelines, necessary discussions and liaison with IRB approval.

Secondary Responsibilities and Duties

Perform other duties as assigned by the Head / Senior Manager

Job Specification/Requirements

- Degree in MBBS (non-registrable foreign MBBS)
- Relevant pathological experience will be advantageous
